

STERLING® BAND SAW BLADES

The solution to ALL your saw blade needs!

Cut Master™ BI-METAL

The new tooth design of this high hardness M-42 blade is ideally suited for cutting larger structural shapes such as I-beam, angle and thick wall tubing. A modified progressive close tolerance set pattern provides smoother finishes than a standard raker set. The tooth profile delivers aggressive cutting performance while resisting tooth strippage.

Width x Thickness					
Inches	mm	T.P.I.	Set	Style	Item No.
1	27	4/3	RAKER	POSI	925710
.035	.90	6/4	RAKER	POSI	925715
1-1/4	34	4/3	RAKER	POSI	925720
